Amendments

Amendment #	Date	Notes
1	August 2023	Rail. UPC: 124309/120532 Virginia State-Supported Amtrak Operations. Operational expenses for two trains.
2	January 2024	Transit. CAT0003 Replacement – Rolling Stock. Updated 2024 funding amounts based on actual allocations, reduced FY2026 funding amount based on planned replacement schedule, and added projected funding amounts for FY2027.
3	January 2024	Transit. CAT0021 Capital Facilities Renovations. New project added to TIP for capital improvements at the operations annex and for the administrative offices.
4	January 2024	TJPCD. TJPCD1 Mobility Management. New project added to TIP for the development and launch of a regional ride referral service for seniors and individuals with disabilities.
5	January 2024	Transit. JNT0001 Operating Assistance. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
6	January 2024	Transit. JNT0002 Replacement Rolling Stock. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
7	January 2024	Transit. JNT0006 ADP Hardware. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
8	January 2024	Transit. JNT0009 ADP Software. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
9	January 2024	Transit. JNT0012 Rehab Renovation Facility. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
10	January 2024	Transit. JNT0013 Spare Parts/ACM Items. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.
11	January 2024	Transit. JNT0015 Support Vehicles. Removing all Jaunt projects from the TIP since they are not direct recipients of federal funding in the urbanized area.

This page TBD

Adjustments

Adjustment #	Date	Notes
1	January 2024	Transit. CAT0001 Operating Assistance. Block was modified to include the 5307 funding that CAT passes through to Jaunt as the sub-recipient operating CAT's paratransit services within the urbanized area.
2	January 2024	Transit. CAT0002 Expansion – Rolling Stock. This block was modified to update the FY2024 amounts based on actual funding allocations and increase the amounts anticipated in FY26 based on agency funding requests.
3	January 2024	Transit. CAT0009 Purchase Support Vehicles. This block was modified to update the FY2024 amounts based on actual funding allocations.
4	April 2024	Rail. UPC: 124309/120532. Removing the TIP box that was added as Amendment 1 and replacing with two separate TIP boxes that show the statewide funding allocations for each UPC project, indicated as Amendments 13 & 14.
5	April 2024	Rail. UPC: 120532 Intercity Rail Service Expansion. The rail capacity improvements include network fluidity improvements between Manassas and Roanoke.
6	April 2024	Rail. UPC: 124309 Transforming Rail in Virginia. Will support intercity rail service improvements and expansion between Roanoke and Washington, DC, Richmond, Newport News, and Norfolk, and extend Amtrak service from Roanoke to the New River Valley.
7	August 2024	Transit CAT0001 The previous funding for FTA 5307 funding were budgetary and this adjustment changed them to actuals.
8	August 2024	Transit CAT0009. Added FY2025 actuals.
9	August 2024	TJPDC01. Add FY2025 funding in the amount of: Total project cost \$215,230- State funds \$34,436.80, Federal 5310 funds \$172,184, and local match \$8,609.20.
10	November 2024	UPC: 110381. Urban Projects, The project is behind schedule which reduced the amount of money that we were borrowing. Therefore, the interest payments were reduced, allowing the release of the federal obligations for FY24 and FY25.
11	March 2025	Added VDOT Safety Performance Targets for 2024 and 2025.
12	April 2025	Updated the LRTP 2045 information to the LRTP 2050 information, additionally added the Goals and Objectives of the LRTP 2050.

This page TBD

Purpose of this Document

The Charlottesville-Albemarle Transportation Improvement Program (TIP) is a document used to schedule spending of federal transportation funds within the metropolitan region in coordination with significant state and local funds for the federal fiscal years 2024 through 2027. It also demonstrates how these projects comply with federal planning regulations. The TIP is a product of the Charlottesville-Albemarle Metropolitan Planning Organization (MPO) in compliance with federal requirements.

Introduction to the Charlottesville/Albemarle Metropolitan Planning Organization (MPO)

The Charlottesville-Albemarle Metropolitan Planning Organization is the forum for continued, cooperative and comprehensive transportation decision-making among Charlottesville, Albemarle, state, and federal officials. Federal law (23 CFR Part 450) requires urbanized areas in the United States with populations greater than 50,000 persons to establish an MPO to coordinate transportation planning. The boundary of the Charlottesville-Albemarle MPO includes the City of Charlottesville and the adjacent urbanized areas of Albemarle County (the rural areas of Albemarle County are outside the MPO boundary, as is illustrated on the map below).

The MPO considers long-range regional projects and combines public input, technical data, and agency collaboration to develop forward-thinking solutions to transportation related challenges.

The MPO is responsible for carrying out a continuous, cooperative, and comprehensive transportation planning process. This process includes reviewing transportation projects and preparing studies and plans.

The Charlottesville-Albemarle MPO is governed by the MPO Policy Board and staffed by the Thomas Jefferson Planning District Commission (TJPDC). MPO Policy Board membership consists of 13 representatives from the following organizations:

Voting Member Organizations (5)	(2) Albemarle County Board of Supervisors
	(2) Charlottesville City Council
	(1) Va. Dept. of Transportation (VDOT)
Nonvoting Member Organizations (8)	Charlottesville Area Transit (CAT)
	Citizens Transportation Advisory Committee (CTAC)
	Federal Transit Administration (FTA)
	Federal Highway Administration (FHWA)
	Jaunt
	Thomas Jefferson Planning District Commission (TJPDC)
	UVA Office of the Architect
	Va. Dept. of Rail and Public Transportation (DRPT)

Two committees support the MPO Policy Board: The MPO Technical Committee and a Citizens Transportation Advisory Committee (CTAC).

The MPO Technical Committee includes representatives from the following organizations:

- | | |
|---|---|
| • City of Charlottesville | • Charlottesville Area Transit |
| • Albemarle County | • Jaunt |
| • University of Virginia | • Federal Transit Administration (FTA) |
| • Virginia Department of Transportation (VDOT) | • Federal Highway Administration (FHWA) |
| • Department of Rail and Public Transportation (VRPT) | • Federal Aviation Administration (FAA) |

The Citizens Transportation Advisory Committee (CTAC) includes 13 citizen representatives. Albemarle County and the City of Charlottesville each appoint five members, and the MPO Policy Board appoints three members.

Introduction to Transportation Improvement Program (TIP)

What is a TIP?

The Charlottesville-Albemarle MPO Transportation Improvement Program (TIP) is a prioritized listing/program of transportation projects covering a period of four years that is developed and

formally adopted by an MPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53. It represents projects from the most recently adopted Long Range Transportation Plan, the 2050 LRTP. The fiscal year for the FY2024-2027 TIP begins on October 1, 2022 and is applicable until September 30, 2026. The Federal Highway Administration (FHWA) is a primary sponsor for many of the highway projects listed in the TIP.

Activities listed for Charlottesville Area Transit (CAT) and Jaunt are projects and programs expected to obligate federal funds over the coming four-year period. The primary sponsor of funding for these activities is the Federal Transit Administration (FTA).

The Purpose of the TIP

The TIP:

- Prioritizes transportation projects expected to be implemented during a four-year period, and describes the schedule for obligating federal funds.
- Contains a financial plan for all modes of transportation including roadways and transit capital and operating costs.
- Serves as a tool for monitoring progress in implementing the MPO's long range transportation plan.
- Is incorporated into the State Transportation Improvement Program (STIP), for its submission to FHWA, FTA, and the Environmental Protection Agency (EPA) for approval.
- Includes state and locally funded regionally significant transportation projects to provide a comprehensive view of transportation projects in the Charlottesville-Albemarle area.
- Includes regionally significant unfunded, visioning transportation projects that are significant to the region's transportation network improvement strategies.

Selecting Projects for the TIP

The FHWA tracks all federally funded projects in the Statewide Transportation Improvement Program (STIP), which incorporates each MPO TIP by reference, in total and without change. The STIP includes all transportation projects in the state of Virginia that are scheduled to receive federal funding over a four-year interval and must first be included in the Six Year Improvement Program (SYIP), developed by VDOT, in cooperation with local governments.

The SYIP is updated biennially and includes a listing of projects, their descriptions, funding sources, and cost estimates. The Commonwealth Transportation Board (CTB) approves the SYIP for the upcoming six-year period by June 30 of every other year.

All projects which appear in the SYIP and require federal approval are included in the TIP; state and locally funded projects are not included in the TIP, unless deemed regionally significant. The schedule and cost estimate for each phase of a project, as well as phase allocation and obligation information per project, can be found in the currently adopted VDOT SYIP, and is available at <http://www.virginiadot.org/projects/syp-default.asp>. Some projects in the TIP are not shown as individual projects. Rather, they are grouped together and shown as a single line item in the TIP. This single line-item represents a grouping of projects with similar funding categories, and displays a cumulative sum of obligations rather than obligations per project.

Transportation Goals and Priorities

The Charlottesville-Albemarle MPO has long-standing transportation goals and priorities that are defined in the regional long-range transportation plan. As required under federal regulations, the long range transportation plan is a listing of the most important projects for the MPO area over the next 20 years. Due to budget constraints, the 2050 LRTP focuses on a practical set of improvements that maximizes the effectiveness of existing transportation investments.

Primary Goal and Major Factors

The overarching regional transportation system goal is to create a balanced, multimodal transportation network, by 1) improving connections throughout the region; 2) improving mobility within neighborhoods, towns, and counties; and 3) making transportation choices that help foster livable communities. Several major objectives have been identified to help the MPO achieve these goals:

- Completion of a well-connected multi-modal networks with better connections within and between neighborhoods.
- Re-engineered intersection and corridor design to improve operational efficiency and safety.
- Fast, frequent, dependable transit service with seamless connections throughout the region.
- Well-executed design details for pedestrian-friendly streets, bike lanes and trails, transit stops, safer intersections, and pedestrian crossings.

All of these elements will also help complete the transit “customer delivery system” needed for efficient, cost-effective transit operations. By building new critical facilities and re-engineering existing roadways, overall system operations and safety will be improved.

The regional dynamics of interconnected roadway networks; coordinated transit systems such as Jaunt, CAT, UTS, and Park and Ride lots; varied commuting patterns; and regional destinations for shopping and recreation point to the need for a coordinated, multi-modal regional transportation plan. This plan must be effectively implemented if the region is to continue to flourish and grow in keeping with the quality of life we currently enjoy. Because the majority of local roadway construction is actually funded privately by developers building new subdivision streets, significant progress can be made through better planning and project coordination. By encouraging more interconnections between new developments, coupled with lower-speed and safer roadway design, a major portion of the roadway network can be completed with private funds. With careful planning, public funding can be maximized by “connecting the dots” between developments.

Specific Emphasis

A better-connected multi-modal network will help relieve traffic congestion along heavily used corridors, and reduce congestion at major bottlenecks and intersections. These systems will also provide for many safety improvements to the overall transportation network, allowing

people to access nearby destinations on smaller-scale, pedestrian-, bike-, and transit-friendly roadways.

While a major focus is expedited project implementation, several new roadways and improvement projects are completed or underway to provide better multi-modal connections and through movements. Some roadways require minor and/or spot improvements, widening, realignments, widened shoulders, or expanded lanes. These projects will improve safety and capacity.

To provide residents and businesses with safe, efficient and truly usable transportation options, the MPO Long Range Plan includes significant emphasis on bike, pedestrian and transit projects. Strategies include a focus on improvements around existing villages, coupled with better connections between neighborhoods, schools, and town centers. Other improvements for pedestrian safety can be made that do not require capital funding and include enhanced enforcement of safety laws.

Getting Involved in the MPO and the TIP Development

MPO Area Meetings

All meetings for the MPO Policy Board and the two other MPO committees are open to the public. Time is reserved at the start and finish of each meeting for comment from members of the public. All meetings are held at the TJPDC Office's Water Street Center, 407 E. Water St., Charlottesville, VA 22902. For more information about the MPO and its committees, please visit <http://campo.tjpd.org/>.

TIP Development

The MPO encourages public involvement in the TIP process. Time is also allotted for public comment concerning the SYIP at the Spring public hearings and the Fall public meetings. For more information about MPO Public Hearings, please visit <http://campo.tjpd.org/committees/>.

For more information about the CTB, please visit <http://www.ctb.virginia.gov/> For more information about the Six Year Improvement Program (SYIP), please visit https://www.virginiadot.org/projects/syip/virginia's_transportation_funding.asp.

Performance Based Planning and Programming

Performance Based Planning and Programming requirements for transportation planning are laid out in the Moving Ahead for Progress in the 21st century (MAP-21), enacted in 2012 and reinforced in the 2015 FAST Act, which calls for states and MPOs to adopt performance measures. Each MPO adopts a set of performance measures, in coordination with the Virginia Department of Transportation (VDOT) and the Virginia Department of Rail and Public Transit (DRPT), and these measures are used to help in the prioritization of TIP and Long-Range Transportation Plan projects.

Rollout of performance measures is ongoing. The MPO has been coordinating with VDOT and DRPT to adopt performance measures and targets as they become available. Once the initial

performance measures and targets are adopted, the MPO will continue to monitor and report progress at required intervals set forth in State and Federal guidance. To date the MPO has formally adopted the following adjusted performance measures and targets.

VDOT Adopted Measures

1. Safety Performance Measures

In accordance with the requirements of MAP-21 and the FAST Act, Virginia has established safety performance objectives as published in [Virginia's 2017 - 2021 Strategic Highway Safety Plan \(SHSP\)](#) and, starting in 2017, annual targets in the Highway Safety Improvement Program (HSIP) Annual Report. The SHSP performance measure objectives are indicated in Table 1 below. Each year, the performance measures are updated by CA-MPO to match the state's performance measures as illustrated in Table 2.

There are five measures that make up the safety category. These measures include the number of fatalities, fatality rate, the number of serious injuries, serious injury rate, and the number of crashes involving bike/ped. The MPO has adopted the state-wide Safety Targets for the five measures. For safety performance measures 1, 2, and 3, annual targets were developed collaboratively by the MPO, Department of Motor Vehicles (DMV) Highway Safety Office (HSO) and VDOT HSIP staff. The DMV HSO also includes these measures in their Highway Safety Plan submitted to the National Highway Traffic Safety Administration (NHTSA) every June.

The Commonwealth Transportation Board approves all five annual targets and VDOT includes these in the HSIP Annual Report submitted to FHWA every August. Within 180 days of VDOT's annual report submission to FHWA, The MPO adopted the Statewide targets for 2022 and adopted regionally-specific targets in 2023 as shown in the tables below. The MPO will assess and update these targets annually.

Table 1: 2022 SHSP Safety Performance Objectives

Performance Measure	Five-year average annual reduction
Number of Fatalities	9
Rate of Fatalities per 100 Million Vehicle Miles Traveled	0.939
Number of Serious Injuries	127
Rate Serious Injury Million Miles Vehicle Miles Traveled	13.295
Number of Non-Motorized Fatalities & Serious Injuries	14

Table 2: 2023 SHSP Safety Performance Objectives

SHSP Safety Performance Objectives	2022 Five-year average annual reduction	2023 Five-year average annual reduction	2024 Five-year average annual reduction	2025 Five-year average annual reduction
Number of Fatalities	9	9	11	12
Rate of Fatalities per 100 Million Vehicle Miles Traveled	0.939	0.76	0.962	0.935
Number of Serious Injuries	127	108	137	143
Rate Serious Injury Million Miles Vehicle Miles Traveled	13.295	9.204	12.106	11.463
Number of Non-Motorized Fatalities & Serious Injuries	14	13	13	17

Adjustment 11, add table with 2022 through 2025 SHSP Safety Performance Measures

2. Pavement and Bridge Condition (PM2)

There are three measures that make up the pavement and bridge condition category. These measures include; the percentage of pavement in good condition (interstate), percentage of pavement in poor condition (interstate), percentage of pavement in good condition (non-interstate National Highway System), percentage of pavement in poor condition (non-interstate National Highway System), percentage of deck area of bridges in good condition (National Highway System), and the percentage of deck area of bridges in poor condition (National Highway System).

The MPO has reviewed the state targets and the predicted trends for the MPO area and adopted the state targets for Fiscal Year 2023 (table 4).

Table 4: PM2 Targets for MPO and Virginia in 2023

Performance Measure	Scope	MPO 2021 Baseline	Adopted 4-Year Target
% Pavement in Good Condition	Interstate	73.50%	45%
% Pavement in Poor Condition	Interstate	0%	3%
% Pavement in Good Condition	NHS (non Interstate)	28.70%	25%
% Pavement in Poor Condition	NHS (non Interstate)	0.10%	5%
% of Bridge Deck Area in Good Condition	NHS (All)	10.80%	25.1%
% of Bridge Deck Area in Poor Condition	NHS (All)	7.80%	3.6%

3. System Performance (PM3)

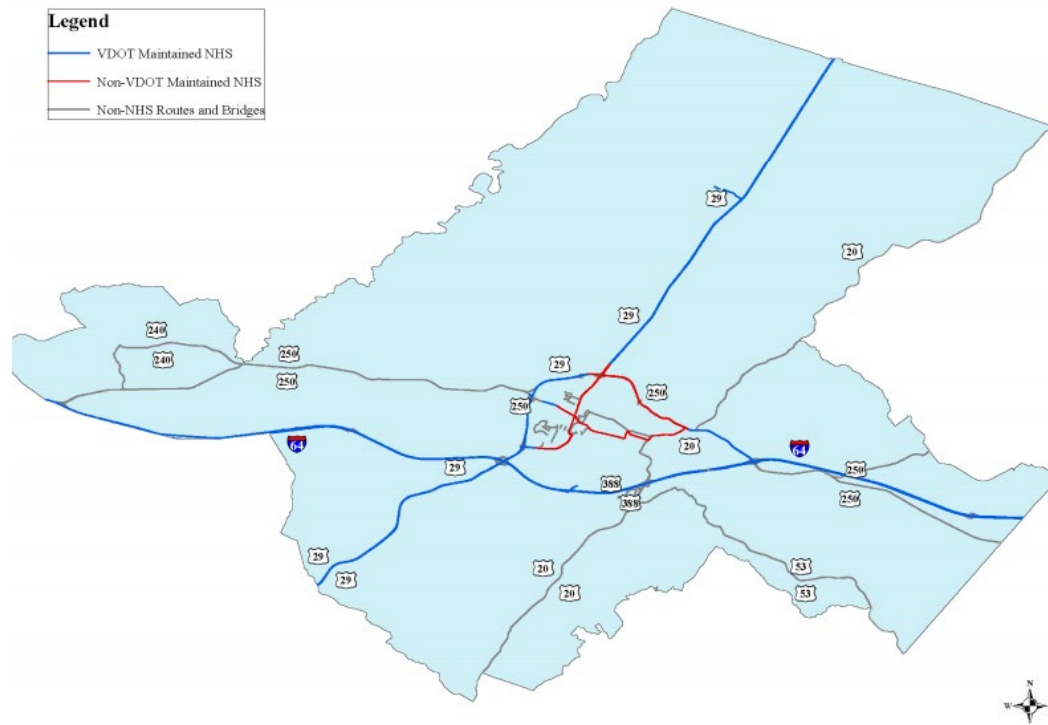

There are three measures that apply to the MPO in the System Performance category. These measures include; the percentage of person-miles traveled that are reliable (Interstates), Percentage of person-miles traveled that are reliable (National Highway System non-interstates), and truck travel times reliability index (Interstates).

The MPO has reviewed the state targets and the predicted trends for the MPO area and adopted the state targets for Fiscal Year 2021 (table 5).

Table 5: PM3 Targets for MPO and Virginia

Performance Measure	Scope	MPO 2021 Baseline	Adopted 4-year Targets
% Person-miles traveled that are reliable	Interstate	100%	85%
% Person-miles traveled that are reliable	NHS (Non Interstate)	90.70%	88.00%
Truck travel time reliability index	NHS (All)	1.15	1.64

CA-MPO Interstates and National Highway System Roadways

DRPT Adopted Measures

The Public Transportation Agency Safety Plan (PTASP) final rule (49 C.F.R. Part 673) intends to improve public transportation safety by guiding transit agencies to more effectively and proactively manage safety risks in their systems. It requires certain recipients and sub-recipients of Federal Transit Administration (FTA) grants that operate public transportation to develop and implement safety plans that, establish processes and procedures to support the implementation of Safety Management Systems (SMS). Agencies are required to fulfill this requirement through an individual or group plan. The PTASP rule provides two tiers of requirements for transit agencies based on size and operating characteristics:

- A Tier I agency operates rail, OR has 101 vehicles or more all fixed route modes, OR has 101 vehicles or more in one non-fixed route mode.
 - A Tier II agency is a subrecipient of FTA 5311 funds, OR is an American Indian Tribe, OR has 100 or less vehicles across all fixed route modes, OR has 100 vehicles or less in one non-fixed route mode
- Tier II** The Department of Rail and Public Transportation (DRPT) is the sponsor for the Statewide Tier II Group PTASP Plan.

The Charlottesville Albemarle Metropolitan Planning Organization (CA-MPO) programs federal transportation funds for Charlottesville Area Transit (CAT) and Jaunt. Charlottesville Area Transit and Jaunt are both Tier II agencies participating in the DRPT sponsored group PTASP Plan.

The CA-MPO has adopted the Tier II PTASP into its TIP by reference and integrated the goals measures and targets described in the 2022 Commonwealth of Virginia Tier II Group Transit Asset Management Plan, October 1, 2022 into the MPO's planning and programming process. Specific targets for the Tier II Group PTASP Plan are displayed in the tables below. CAT contracts with Jaunt to provide paratransit service for its fixed routes. Table 6 contains CAT's fixed route service and the paratransit numbers are for Jaunt's paratransit service provided to CAT. Table 7 is for fixed route commuter service provided by Jaunt like the Buckingham route and the 29 express.

Table 6: Charlottesville Area Transit PTASP Performance Targets by Mode:

Performance Measures	Targets by Mode	
	Fixed Route	Paratransit/ Demand Response
Fatalities (total number of reportable fatalities per year)	0	0
Fatalities (rate per total vehicle revenue miles by mode)	0	0
Injuries (total number of reportable injuries per year)	5	0
Injuries (rate per total vehicle revenue miles by mode)	Less than .5 injuries per 100,000 vehicle revenue miles	Less than .5 injuries per 100,000 vehicle revenue miles
Safety events (total number of safety events per year)	10	1
Safety events (rate per total vehicle revenue miles by mode)	Less than 1 reportable event per 100,000 vehicle revenue miles	Less than 1 reportable event per 100,000 vehicle revenue miles
Distance between Major Failures	10,000 miles	10,000 miles
Distance between Minor Failures	3,200 miles	3,200 miles

Table 7: Jaunt PTASP Performance Targets by Mode:

Performance Measures	Targets by Mode	
	Fixed Route	Paratransit/ Demand Response
Fatalities (total number of reportable fatalities per year)	0	0
Fatalities (rate per total vehicle revenue miles by mode)	0	0
Injuries (total number of reportable injuries per year)	9	0
Injuries (rate per total vehicle revenue miles by mode)	Less than .5 injuries per 100,000 vehicle revenue miles	Less than .5 injuries per 100,000 vehicle revenue miles
Safety events (total number of safety events per year)	17	0
Safety events (rate per total vehicle revenue miles by mode)	Less than 1 reportable event per 100,000 vehicle revenue miles	Less than 1 reportable event per 100,000 vehicle revenue miles
Distance between Major Failures	10,000 miles	10,000 miles
Distance between Minor Failures	3,200 miles	3,200 miles

Additional information and guidance on the Public Transportation Agency Safety Plan (PTASP) is available on FTAs Public Transportation Safety Plan webpage: <https://www.transit.dot.gov/PTASP> and in the PTASP final rule factsheet:

<https://www.transit.dot.gov/sites/fta.dot.gov/files/docs/regulations-and-guidance/safety/public-transportation-agency-safety-program/117281/ptasp-fact-sheet-02-06-2019.pdf>.

Performance Based Planning and Programming in the TIP and LRTP:

As Performance Based Planning and Programming requirements are rolled out and targets are set, projects in the TIP have been assessed to connect project scopes, as identified in the TIP, to goals in the MPO Long Range Transportation Plan (LRTP 2050). The LRTP 2050 plan was developed with MAP-21 guidance and includes performance measures aligned with MAP-21. [These goals are set out in Chapter 4 of the 2050 Long Range Transportation Plan](#), and listed below.

L RTP 2050 Goals and Objectives:

Goals

The plan's identified goals direct the process of evaluating the transportation system and developing infrastructure priorities. While the lenses indicate overarching community values that need to be considered, the goals address the transportation system directly. The goals define values necessary for the region to consider when determining how to improve the transportation system while incorporating and considering national goals, established performance targets, and state funding programs.

Objectives

The plan's objectives are specific and measurable, describing observable outcomes. They can determine whether the region is successfully achieving its established goals.

- **Goal 1: Safety** - Improve the safety of the transportation system for all users.
 - » *Objective 1: Reduce the frequency of serious injury and fatal crashes.*
 - » *Objective 2: Improve comfort and safety for users of the multimodal system.*
- **Goal 2: Multi-Modal Accessibility** - Improve access through greater availability of mode choices that are affordable and efficient.
 - » *Objective 1: Increase mode choice for all users.*
- **Goal 3: Land Use** - Connect community destinations in a manner that aligns with growth management priorities.
 - » *Objective 1: Provide multimodal infrastructure in designated growth areas, mixed-use areas, and near community resources.*
 - » *Objective 2: Fill connectivity gaps in the multimodal network.*
- **Goal 4: Environment** - Reduce the negative environmental impacts of the transportation system.
 - » *Objective 1: Minimize impacts of the transportation system on the natural and built environment.*
 - » *Objective 2: Integrate sustainable infrastructure practices into project design.*
- **Goal 5: Efficiency and Economic Development** - Efficiently and reliably move people and goods through the multimodal transportation system.
 - » *Objective 1: Improve roadway and transit system efficiency through operational improvements.*
 - » *Objective 2: Increase system capacity at identified bottlenecks.*
 - » *Objective 3: Maintain the existing system in a state of good repair.*

TIP linkage to adopted measures:

New TIP and LRTP projects are reviewed for their linkages to safety needs using the following steps:

- Safety deficiencies are identified by analyzing crash data provided by VDOT as part of the Highway Safety Improvement Program.
- Proposed projects are reviewed for their impact on safety using crash modification factors based on project design.

7	Environmental Review Reports	Copies are available in both the central Richmond Office and each District Office. They are sent to local residencies within 30 days of any public hearing about the project to which they relate. For additional information on Environmental Review for TIP projects, contact Rick Crofford (VDOT, Culpeper District Assistant Environmental Manager).

TIP User's Guide: Understanding the TIP Format

Project information appears for each project that currently receives federal funding through the Six-Year Improvement Program. The information for each of these projects appears in the chart format shown below and is provided to the MPO by VDOT. Terms are listed consistently in the grey boxes, while project-specific details are listed in the white boxes to the right of, or below, each term. Definitions for the numbered terms appear in the corresponding Glossary of Terms table. Project information will appear in the TIP if funding is necessary for miscellaneous follow-up costs (e.g. utility relocation, miscellaneous bill payment, etc.). Projects must be removed from the Six Year Program in order to be removed from the TIP.

1	UPC NO	77273	2	SCOPE	BRIDGE REPLACEMENT				5	OVERSIGHT	NFO	7
3	SYSTEM	Secondary	6	JURISDICTION	Albemarle County			ADMIN BY	VDOT	10		
8	PROJECT	RTE 743 - BRIDGE & APPROACHES OVER NORTH FORK RIVANNA

	ROUTE/STREET	0743					TOTAL COST	\$4,017,516				
	FUND SOURCE	MATCH	FY09	FY10	FY11	FY12						
			\$0	\$0	\$0	\$0						

Glossary of Terms

	Term	Definition
1	Universal Project Code (UPC) Number	Number assigned to each project at its conception, remaining with the project until completion.
2	Scope	Includes notes about the work to be covered by the project.
3	System	Indicates which system, program, or mode of transportation the project falls within. E.g. Interstate, Primary, Secondary, Urban, Rail, Transportation Enhancements, or Miscellaneous.
4	Jurisdiction	The jurisdiction (City of Charlottesville or Albemarle County) in which the project will occur.
5	Federal Oversight Indicator (FO or NFO)	FO: Indicates Federal Oversight in the project construction, contracting, and management. NFO: Indicates No Federal Oversight in the construction, contracting, and management issues, and does not affect the standard environmental review process for transportation projects. All federally funded transportation projects must include the required environmental documents regardless of whether there is federal oversight required.
6	Project/Project Phase	Name of the Project and Phase (i.e. <i>PE: Preliminary Engineering</i> - Preliminary field survey, utility location, environmental or historical studies, design drawings, final field inspections and public hearings will be done. This process can take several months to years to complete; <i>RW: Right of Way</i> - Negotiations with property owners take place, payments are made, and arrangements with utility companies are finalized to obtain the land necessary for the project; or <i>CN: Construction</i> - Project is advertised to prospective contractors for bids. Once the bids are opened and a contract awarded, construction can begin.)
7	Admin By	Entity responsible for the project
8	Description	Limits of the project
9	Route/Street	Local street name
10	Total Cost	The total estimated cost (TO) reflecting the best overall estimate available at the time. Estimated costs begin as rough estimates, usually based on historical data, and are updated at critical stages (e.g. the final field inspection), as plans are more defined.

	Term	Definition	
11	Fund Source <i>All designations except "State" indicate that federal funds are to be used for at least a portion of the project.</i>	FHWA funding sources are described below:	
		APD <i>Appalachian Development</i>	HPD <i>TEA-21 Priority</i>
		APL <i>Appalachian Local Access</i>	I <i>Interstate</i>
		BH <i>Bridge Rehabilitation</i>	IM <i>Interstate Maintenance</i>
		BOND <i>Bonds/Interest</i>	NHS <i>National Highway System</i>
		BR <i>Bridge Replacement</i>	OC <i>Open Container</i>
		CMAQ <i>Congestion Mitigation & Air Quality</i>	OT <i>Off the Top</i>
		DEMO <i>Federal Demonstration</i>	RO <i>Repeat Offender</i>
		DT <i>Dulles Toll Facilities</i>	RPT <i>Richmond-Petersburg Turnpike Tolls</i>
		EN <i>Enhancement</i>	RS <i>Rail Safety (100% Federal)</i>
		FH <i>Forest Highway</i>	RSTP <i>Regional Surface Transportation Program</i>
		FRAN <i>Federal Reimbursement Anticipation Notes</i>	S <i>State</i>
		FTA <i>Federal Transit Authority Grant</i>	STP <i>Surface Transportation</i>
		HES <i>Hazard Elimination Safety (Sec. 152)</i>	TFRA <i>Toll Facilities Revolving Doc</i>
		12	Match
13	Current and Future Obligations	The amount of funding which is obligated for the indicated phase of work. An obligation represents a commitment from the Federal government to reimburse the state for the Federal share (e.g. 80%) of a project’s eligible cost. This commitment occurs when the project is approved and the Federal government executes the project agreement. The funding obligation listed is the dollar amount that a state may spend and expect reimbursement for during each Federal fiscal year.	

Additional Project Information Each ungrouped project summary includes additional detail provided by the MPO, the City of Charlottesville, and Albemarle County. This information appears in a small chart beneath the project's cost estimates and obligations, and includes detail describing the project's location, purpose, MPO endorsement status, and environmental review information, including:

Environmental Impact Statement (EIS)	An Environmental Impact Statement is prepared for projects which are expected to have a significant impact on the environment
Categorical Exclusions (CE)	Categorical Exclusions apply to projects which will not individually or cumulatively cause a significant environmental impact. Most CEs require minimal administrative review.
Program Categorical Exclusions (PCE)	Program Categorical Exclusions are pre-determined actions which do not require administration review.

Environmental Assessment (EA)	An Environmental Assessment is prepared for actions in which the significance of the environmental impact is not clear.
Not Available (NA)	Not available or not undertaken is when any of the above have not yet been completed or are not needed.

TIP Financial Information

SYIP Allocations vs. TIP Obligations

The SYIP is an allocation document similar to a capital outlay plan. Allocations are funds that are available in current and previous years (i.e., “the budget”) and those forecasted for future years over the period covered in the SYIP. For example, the FY 2015-2020 SYIP became effective on July 1, 2014; at that time, FY 2015 allocations were combined with any remaining previous allocations that were on each project and together, all previous allocations represent the current budget on the project; funds for FY 2016 through FY 2020 are funds projected to be available in each of those years based on the most recent revenue forecast. Allocations come from several sources, including state, federal, and local funds and represent the amount of funding the Commonwealth has set aside to fund the cost of each project.

The TIP is an obligation document. Obligations are not allocations, but instead represent commitments by the federal government to reimburse the state for the federal share of a project’s eligible costs. Thus, states do not receive funding in advance of beginning a project or phase; instead, a project or phase is authorized in a federal agreement under which FHWA or FTA commits to reimburse the state for a share of eligible costs. Obligations are identified in the STIP/TIP by project and project phase (i.e., Preliminary Engineering (PE), Right of Way (RW), and Construction (CN)), and are forecasted across a three-year period.

To better understand the relationship between allocations and obligations, consider the allocation as the money in your checking account that you plan to spend; consider the obligations as the checks you plan to write to cover costs incurred. Like balancing a checkbook, a project’s obligations should be equal to or less than the amount of funding allocated to it, generally speaking. Since the TIP is an obligation document, it identifies the amount of funding anticipated to be reimbursed by the federal government, while the SYIP is an allocation document that identifies the total amount of funding expected to be expended to deliver the specified projects and programs.

TIP Financial Plan

MAP-21’s planning regulation 23 CFR 450.324(h) specifies the inclusion of a financial plan in the TIP that shows how the projects or project phases identified can reasonably be expected to be implemented with the available public and private revenues identified. TIP projects and phases are required to be consistent with the long-range plan and must be fully funded in the TIP. To the extent that funding is available or is reasonably expected to be available, priority projects and phases have been selected for inclusion in this TIP. The MPO and its member organizations have cooperatively developed financial forecasts for the TIP based on the latest official planning assumptions and estimates of revenue(s) and cost(s). The financial information is given by

funding category for the projects listed and expected to be implemented during the four-year period beginning in FY 2021.

Some projects listed in the TIP may show \$0 for planned obligations. Possible reasons for this include:

- Project is complete and is awaiting financial closeout;
-
- Subsequent phases beyond four years;
- Information only, funding being pursued; or
- Project to be funded from [category] group funding.

In addition to construction projects, revenue projections have been made for maintaining and operating the region's highway and transit systems during the same four-year period. Funded TIP actions typically include, but are not limited to:

- transportation studies;
- ground transportation system improvement projects (fixed-guide, highway, bicycle, pedestrian, commuter lots, etc.);
- public transit systems and services, including the components of coordinated human service mobility plans;
- system maintenance (monitoring, repair and/or replacement of system facilities and support sites; snow removal; mowing; painting; rest area or weigh station sites; etc); and
- system operations (ITS-TSM applications; traffic operations such as signalization, signal coordination, ramp meters, or message signs; roadside assistance; incident management; for the urbanized TMAs, their Congestion Management Process activities; VDOT traffic management centers; bridge-tunnel management; toll road or congestion pricing management; etc.).

Funding Sources

The following provides a general overview of funding programs utilized in the development of the TIP.

Highway Funding Program:

BR/BROS **Bridge Rehabilitation and Replacement** program provides funding for bridge improvements. Eligibility for funding is based on a rating of bridge condition by VDOT as a candidate for upgrading.

DEMO The federal transportation acts include demonstration, priority, pilot, or special interest projects in various Federal-aid highway and appropriations acts. These projects are generically referred to as "demonstration" or "demo" projects, because Congress initiated this practice of providing special funding for these projects to demonstrate some new or innovative construction, financing, or other techniques on specific projects.

EB/MG The **Equity Bonus** (formerly known as **Minimum Guarantee**) ensures that each State receives a specific share of the aggregate funding for major highway programs (Interstate Maintenance, National Highway System, Bridge, Surface Transportation Program, Highway Safety Improvement Program, Congestion Mitigation and Air Quality Improvement, Metropolitan Planning, Appalachian Development Highway System,

	Recreational Trails, Safe Routes to School, Rail-Highway Grade Crossing, Coordinated Border Infrastructure programs, and Equity Bonus itself, along with High Priority Projects), with every State guaranteed at least a specified percentage of that State's share of contributions to the Highway Account of the Highway Trust Fund.
IM	Interstate Maintenance (IM) program provides reconstruction, maintenance, and improvements to the National System of Interstate and Defense Highways. The Commonwealth Transportation Board (CTB) administers these programs.
NHS	National Highway System (NHS) projects can be funded only if they are on the National Highway System, which is established by Congress.
RSTP	Regional Surface Transportation Program (RSTP) provides funding for a broad range of capacity, operational, and congestion mitigation related improvements. Projects include road widening, rehabilitation, transit capital, research, environmental enhancements, intelligent transportation systems, planning, and others.
SAFETEA-LU	The Safe Accountable, Flexible, and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) is the federal transportation bill that provides federal transportation funding to each state. The SAFETEA-LU funding category refers to funding earmarks that Congress included in the legislation for specific projects. This funding can only be used for the project(s) for which it is earmarked.
STP	Surface Transportation Program (STP) can be utilized on any project located on a roadway that is classified higher than a minor collector. Projects eligible for funding under this program include construction, reconstruction, and rehabilitation, and bridge projects on any public road. Local STP funds are designated as L-STP.
Non-Federal	Any funding that does not come from federal sources is grouped into the non-federal funding category.
EN	Transportation Enhancement funds have been made available for bicycle and pedestrian facilities through the Surface Transportation Program of the TEA-21. A 10% set aside from each state's allocation of STP funds must be used for Transportation Enhancement activities. Projects are available for funding on a statewide competition basis for enhancement grants. The Enhancement program includes a set aside for the Roadscapes Program, which provides funding for local jurisdictions to apply for landscaping projects on state and federally maintained rights-of-way.
SRS	Safe Routes to School is a competitive grant program to enable and encourage children to safely walk and bicycle to school. Funds can be used for infrastructure improvements and educational programs.

Transit Funding Programs:

Section 5307 Federal Transit Administration formula grants for transit operating assistance in urbanized areas.

Section 5311 Federal Transit Administration formula grants transit operating assistance outside urbanized areas.

Section 5317 Federal Transit Administration funds for Job Access and Reverse Commute grants to provide low-income individuals job access transportation.

Section 5309 Federal Transit Administration discretionary grant funding for capital assistance for major bus related construction or equipment projects.

Section 5310 Federal Transit Administration funds for private and non-profit organizations providing mass transportation services for the elderly and disabled.

Non-Federal Any funding that does not come from federal sources is grouped into the non-federal funding category.

Transit

Charlottesville Area Transit (CAT) uses the Transportation Improvement Program (TIP) development process of the TJPDC Metropolitan Planning Organization (MPO) to satisfy the public hearing requirements of 49 U.S.C. Section 5307(c). The TIP public notice of public involvement activities and time established for public review and comment on the TIP satisfies the program-of-projects requirements of the Urbanized Area Formula Program.

Rail Projects

UPC NO	124309/120532	SCOPE	Operational expenses related to two trains.				
SYSTEM	Primary	JURISDICTION	Charlottesville-Albemarle MPO		OVERSIGHT	NFO	
PROJECT	Virginia State-Supported Amtrak Operations				ADMIN BY	VPRA	
DESCRIPTION	Operating expenses for two trains on the Roanoke route (Route 46). The cost included is only for a portion of the route and a portion of the train costs estimated for the jurisdiction.						
PROGRAM NOTE	TIP AMD - FY 2024-2027 Transportation Improvement Program (TIP) Amendment – Virginia State-Support Amtrak Operations						
ROUTE/STREET	Roanoke Operations (Route 46)				TOTAL COST	\$22,170,853*	
	FUNDING SOURCE	Previous Funding	FY24	FY25	FY26	FY27	Total FY24-27
PE	Federal CMAQ	\$0	\$1,701,699	\$1,771,225	\$1,904,175	\$1,982,655	\$7,359,754
PE	State CMAQ	\$0	\$425,425	\$442,806	\$476,044	\$495,664	\$1,839,938

MPO Notes		FHWA considers the CMAQ-funded Amtrak projects to be exempt from air quality conformity requirements as the funding is going towards “operating assistance,” which is specifically listed as being exempt in Table 2 of EPA’s Transportation conformity rule. * Total cost includes operating expenses from previous funding and estimated expenses through FY27 as these are operating expenses without an end date. *Amendment #1: The CA-MPO Policy Board approved addition of this project to the TIP on August 23, 2023. Adjustment #4: This project is being removed from the CA-MPO TIP and being replaced by the statewide projects described in Amendment #13 (UPC 120532) and #14 (UPC 124309).(4/5/24)

MPO Notes			*Adjustment #6: This is funding is coupled with UPC 120532 to support intercity rail service improvements and expansion between Roanoke and Washington, DC, Richmond, Newport News, and Norfolk, and extend Amtrak service from Roanoke to the New River Valley. The funding indicated here represents funding that allocated statewide, a portion of which will be allocated within the Charlottesville-Albemarle MPO. (4/5/24)				

CAT Summary

The following tables are based on CAT's FY2020 Transit Development Plan (TDP). The TDP serves as a guide regarding the ongoing and future operations of CAT. It provides a review of CAT's operational performance and objectives to direct performance improvements and expansions. All amounts are reported in units of \$1,000.

Year Total	-	2,244	-	21,075	13,700	Year Total	37,019
Description:	Amendment #3: New project added to the TIP. This funding will go towards two capital projects. The first is improvements to the Operations Annex to include two additional bays, bays for alternative fuel vehicles and other facility improvements. The second improvement is for the Administrative Offices to include renovations and the addition of training facilities. NEPA will be completed in FY2024 for both projects, and improvements will start in FY2026 once plans are reviewed and approved.						

TJPDC Summary

The TJPDC received FTA 5310 starting in FY 2024 to launch a Mobility Management program to operate a one-call-one-click ride referral and information center to support improved mobility for seniors and individuals with disabilities throughout the region.

	Previous Funding	FY2024	FY2025	FY2026	FY2027	Total FY2024-FY2027

Description:	<p>Adjustment # 9 TJPDC01. Add FY2025 funding in the amount of: Total project cost \$215,230- State funds \$34,436.80, Federal 5310 funds \$172,184, and local match \$8,609.20.</p> <p>Amendment #4: This is a new project being added to the TIP based on funding allocations for the TJPDC to launch and operate a ride referral service for seniors and individuals with disabilities.</p>						

Rail Summary

The Commonwealth programmed \$111 million in CMAQ funds to the Virginia Passenger Rail Authority to be used on four state-supported Amtrak routes. FHWA confirmed CMAQ funding can be used for new Amtrak state-supported service in the Commonwealth, to be applied to gross operational and capital equipment expenses.

UPC NO	20299/25137	SCOPE	Operational expenses related to two trains.				
SYSTEM	Primary	JURISDICTION	Charlottesville-Albemarle MPO	OVERSIGHT			
PROJECT	Virginia State-Supported Amtrak Operations			ADMIN BY	VPRA		
DESCRIPTION	Operating expenses for two trains on the Roanoke route (Route 46). The cost included is only for a portion of the route and a portion of the train costs estimated for the jurisdiction.						
PROGRAM NOTE	TIP AMD - FY 2024-2027 Transportation Improvement Program (TIP) Amendment – Virginia State-Support Amtrak Operations						
ROUTE/STREET	Roanoke Operations (Route 46)			TOTAL COST	\$22,170,853*		
	FUND SOURCE	Previous Funding	FY24	FY25	FY26	FY27	Total FY24-27
PE	Federal CMAQ	\$0	\$1,701,699	\$1,771,225	\$1,904,175	\$1,982,655	\$7,359,754
PE	State CMAQ	\$0	\$425,425	\$442,806	\$476,044	\$495,664	\$1,839,938
PE	VPRA	\$3,771,469	\$2,127,123	\$2,214,031	\$2,380,219	\$2,478,318	\$9,199,692

Notes:

- Oversight – No federal oversight
- Regionally Significant for Air Quality – No, FHWA considers the CMAQ-funded Amtrak projects to be exempt from air quality conformity requirements as the funding is going towards “operating assistance,” which is specifically listed as being exempt in Table 2 of EPA’s Transportation conformity rule.
- * Total cost includes operating expenses from previous funding and estimated expenses through FY27 as these are operating expenses without an end date.

Jaunt Summary¹

JAUNT completed its 2022 Transit Development Plan in December of the same year to more closely align with operating changes and capital improvement projects.

	Previous Funding FY2023	FY 2024	FY 2025	FY 2026	FY 2027	Total FY 2024-2027

Description:	Amendment #5: The CA-MPO Policy Board approved the removal of all Jaunt’s projects from the TIP on January 24, 2024 due to the determination that they are not direct recipients of federal funding in the urbanized area.						

¹ This information is being left in the FY2024-2027 TIP for historical documentation. After the approval of the initial document, staff realized that inclusion of Jaunt's funding in the document was in error. The 5307 funding that Jaunt receives as a sub-recipient to Charlottesville Area Transit is reflected in Charlottesville Area Transit's Operating Assistance TIP block, and the rest of Jaunt's funding allocations were removed from the TIP at the January 24, 2024 Policy Board meeting.

Appendix B. Transit Asset Management

Transit Asset Management Plans

The National Transit Asset Management System Final Rule (49 U.S.C 625) specifies four performance measures, which apply to four TAM asset categories: equipment, rolling stock, infrastructure, and facilities. Figure 2 describes each of these measures.

Figure 2: TAM Performance Measures by Asset Category

Asset Category	Relevant Assets	Measure	Measure Type	Desired Direction
Equipment	Service support, maintenance, and other non-revenue vehicles	Percentage of vehicles that have met or exceeded their ULB	Age-based	Minimize percentage
Rolling Stock	Buses, vans, and sedans; light and heavy rail cars; commuter rail cars and locomotives; ferry boats	Percentage of revenue vehicles that have met or exceeded their ULB	Age-based	Minimize percentage
Infrastructure	Fixed guideway track	Percentage of track segments with performance (speed) restrictions, by mode	Performance-based	Minimize percentage
Facilities	Passenger stations, parking facilities, administration and maintenance facilities	Percentage of assets with condition rating lower than 3.0 on FTA TERM Scale	Condition-based	Minimize percentage

FTA = Federal Transit Administration. TAM = Transit Asset Management. TERM = Transit Economic Requirements Model. ULB = Useful Life Benchmark.

Two definitions apply to these performance measures:

- **Useful Life Benchmark (ULB)**—"The expected lifecycle of a capital asset for a particular transit provider's operating environment, or the acceptable period of use in service for a particular transit provider's operating environment." For example, FTA's default ULB of a bus is 14 years.
- **FTA Transit Economic Requirements Model (TERM) Scale**—A rating system used in FTA's TERM to describe asset condition. The scale values are 1 (poor), 2 (marginal), 3 (adequate), 4 (good), and 5 (excellent).

The National Transit Asset Management System Final Rule (49 U.S.C. 625) requires that all transit agencies that receive federal financial assistance under 49 U.S.C. Chapter 53 and own, operate, or manage capital assets used in the provision of public transportation create a TAM plan. Agencies are required to fulfill this requirement through an individual or group plan. The TAM rule provides two tiers of requirements for transit agencies based on size and operating characteristics:

- A Tier I agency operates rail, OR has 101 vehicles or more all fixed route modes, OR has 101 vehicles or more in one non-fixed route mode.

- A Tier II agency is a subrecipient of FTA 5311 funds, OR is an American Indian Tribe, OR has 100 or less vehicles across all fixed route modes, OR has 100 vehicles or less in one non-fixed route mode.

The Department of Rail and Public Transportation (DRPT) is the sponsor for the Statewide Tier II Group Plan. The Charlottesville Albemarle MPO programs federal transportation funds for Charlottesville Area Transit and JAUNT. Charlottesville Area Transit and JAUNT are Tier II agencies participating in the DRPT sponsored group TAM Plan. The MPO has integrated the goals measures and targets described in the [Federal Fiscal Year 2018 Group Transit Asset Management Plan and 2020 plan Addendum](#) into the MPO's planning and programming process specific targets for the Tier II Group TAM Plan are included in the table below.

Table 3: TAM Targets for rolling stock and facilities: Percentage of Revenue Vehicles that have met or exceeded their ULB by Asset Type.

Asset Category - Performance Measure	Asset Class	2020 Target*
Revenue Vehicles		
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	AB - Articulated Bus	15%
	BU - Bus	10%
	CU - Cutaway	10%
	MB - Minibus	20%
	BR - Over-the-Road Bus	15%
	TB - Trolley Bus	10%
	VN - Van	25%
Equipment		
Age - % of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue/Service Automobile	25%
	Trucks and other Rubber Tire Vehicles	25%
Facilities		
Condition - % of facilities with a condition rating below 3.0 on the FTA TERM Scale	Administrative and Maintenance Facility	10%
	Administrative Office	10%
	Maintenance Facility	10%
	Passenger Facilities	10%

Metropolitan Transportation Planning Process Self-Certification Statement

In accordance with 23 CFR 450.336, the Virginia Department of Transportation and the Charlottesville-Albemarle Metropolitan Planning Organization for the City of Charlottesville and the urbanized area of Albemarle County hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- I. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- II. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) & 49 CFR part 21;
- III. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- IV. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- V. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- VI. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37 and 38;
- VII. In States containing nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- VIII. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- IX. Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- X. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
